Elegant Walnut, 2 Strip

It's a sensation

Can you tell the difference?

The new, deeper embossing highlights every grain in our wood designs

Beautiful details

Every design underlines the natural character of wood, even down into the bevels

A look to love

A new matt finish brings out the best of wood and puts the final touch on the Pergo Sensation floors

Feel the sensation

Beauty beyond looks

There is more to a beautiful floor than meets the eye. That is why Pergo laminate floors not only look authentic, they feel that way too.

Our collections feature seven different surface textures that each serve to enhance the authentic impression of your laminate floor. From the well-worn vintage look to the natural feeling of wood grains. To allow more fine tuning of your interior design, our surface structures are

also available in different levels of gloss. No matter what style you're looking for, Pergo floors provide a sophisticated way to bring out even more of the character you want for your home.

Genuine™ wood, GW
A subtle wood structure which follows the wood grain in every detail, an effect that is even more prominent in our Sensation floors. Available in different gloss levels.

Genuine™ rustic, GR
A pronounced wood structure that follows the wood grain in every detail, which is highlighted even more in Pergo Sensation floors. Can have cracks, knots and scraped effects.

Genuine™ sawcut, GC
Realistic wood structure with a saw effect.

Genuine™ stone, GS
A life-like impression that follows the structure of real stone tiles.

Wood, WO
A fine and realistic wood texture, which highlights any kind of wood decor from light to dark wood species. Available in different gloss levels.

Smooth, SO
A silky, smooth surface for a softer touch and modern look. Available in different gloss levels.

Antique wood, AW
A rustic texture with a vintage feeling.

Structure		Gloss	
WO	Wood	SP	Semi polished
SO	Smooth	SM	Silk matt
GW	Genuine™ wood	MA	Matt
GR	Genuine™ rustic	EM	Extra matt
GC	Genuine™ sawcut		
GS	Genuine™ stone		
AW	Antique wood		

Best durability!

Thanks to the patented TitanX™ surface protection, a Pergo laminate floor will keep its elegant finish year in and year out. TitanX™ is a multilayer technology that includes protective layers of aluminium oxide particles, which provides superior resistance to wear and scratching. And with the special impact layers combined with a high quality core material, TitanX™ also provides very high resistance for handling dropped objects and high heels.

- 1 Superior wear and scratch resistance layer
- 2 Crystal clear decor
- 3 Excellent impact resistance
- 4 Moisture resistant HDF core
- 5 Back stabiliser

Why choose a Pergo floor!

Wear protection

Pergo's patented TitanX™ surface is the best multilayer protective floor finish on the market, providing wear resistance that exceeds normal standards for commercial environments.

Easy installation

Pergo's patented PerfectFold™ 3.0 installation system makes installation faster and easier because you can simply fold the floor into place.

Scratch resistance

The TitanX™ surface has an extra protective layer providing the best scratch and scuff resistance in the market, so your Pergo floor will retain its lustre much longer than other laminate floors.

Water resistance

Pergo's Moisture Resistance System combines moisture resistant core materials with a strong and tight click joint. The result is a product, which is amongst some of the most moisture-resistant floors in the market.

Impact resistance

The unique multilayer construction of our TitanX™ surface together with a dense core material provides very high impact resistance for handling dropped objects and high heels.

High fire resistance

A Pergo floor with TitanX™ surface has a natural high resistance to fire, thanks to its multilayer construction. This, in combination with the core's density allows for faster heat dissipation.

Easier cleaning

A Pergo floor with TitanX™ surface is much easier to clean than ordinary floors. The reason is that the TitanX™ surface is so tightly sealed that dirt simply cannot settle in.

Anti-static

Pergo laminate floors eliminate static electricity. Electrostatic charges generated by Pergo laminate floors are generally very low, but to reduce them even more we have developed a technology to give selected floors permanent antistatic properties throughout the life of the floor.

Hygienic

A Pergo laminate floor makes it easier to maintain a high level of hygiene. Bacteria require nourishment and moisture in order to thrive and the tightly sealed, easy to clean TitanX™ surface makes this impossible. This provides a high level of hygiene naturally, without chemical antiseptics.

fast
& easy
installation

Your floor is just a click away!

Installing your Pergo floor is now faster and easier than ever. The innovative PerfectFold™ 3.0 system is available with Pergo laminate floors at all quality levels. Just click the planks together using the method that works best for you and it'll be done in no time. There's no risk of you damaging the floor panels. Even if you want to reinstall your planks, the PerfectFold™ 3.0 system makes it easy to lift them up and replace them whenever necessary.

Drop down

This is the ideal method for quickly installing and covering a large area. Click the plank at the long side joint, then slide it until it meets the end of the previously installed plank, and press down.

Insert horizontally

Unlike many other brands, Pergo laminate floors can also be inserted horizontally. This is a very handy option for places where it is difficult or impossible to tilt the planks (when installing the last row of planks, or under door frames and radiators).

Angle

If you prefer, Pergo offers a third option for installing your new laminate floor. Simply, hold it at an angle and click the planks together at the short end.

*Domestic Extra Uniclic comes with the Uniclic system offering two different installation methods: Hold it at an angle & insert horizontally

5 perfect finishes in 1

Pergo 5-in-1 offers different moulding solutions for different parts of your floor, all wrapped up in one handy package. The mouldings match your floor perfectly in colour as well as in texture, and the all-in-one solutions provide a seamless result. The surface is a wear and scratch-resistant laminate. The core consists of HDF and the bottom is made of plastic. With the patented Incizo[®] solution, you can simply cut the moulding to the shape you need. Suitable for flooring heights between 7 and 10 mm.

T-moulding
From laminate to laminate

Carpet transition
From laminate to carpet

Hard surface reducer
From laminate to ceramic, vinyl or linoleum

End moulding
Finishing up to threshold, sliding doors, etc.

Stair nose moulding, flush
For a flush finish on stair treads

Stair nose moulding
For a step down from a floating floor, e.g. at the top of the stairs or a step down in a room

The Incizo[®] subprofile is required for stair application and has to be ordered separately.
NEINCPBASE (on request)

Stair nose aluminium (on request)
Fits to flooring thickness of 7 - 16 mm, W = 23 mm, L = 2.7 m.
PGSTPSILV, silver.
Surface: aluminium.

Wallbase, straight
PGSKR(-), 2400 x 14 x 58 mm
PGPSKR(-), 2400 x 14 x 77 mm (on request)
See matching matrix for correct art no.

Colour matched.
Surface: wear and scratch-resistant laminate.
Core: MDF.

Combi moulding, aluminium (on request)
PGPRSILV, silver

T-moulding and reducer in one. Plastic bottom rail.
Suitable for height differences of 0 - 12.3 mm.
1860 x 47 mm, H: 10 mm (uninstalled).
Colour: silver. Surface: aluminium.

End moulding, aluminium (on request)
PGENPSILV, silver

Fits to flooring thickness of 6 - 10 mm.
2700 x 25 mm.
Colour: silver. Surface: aluminium.

Aqua accessories

For wet area use with Pergo Sensation floors

Aqua Sealant

PGKITTRANS
310 ml. A high-quality, transparent and elastic one-component silicone that creates an invisible and waterproof finishing around wallbases, mouldings, transitions, door frames, etc.

Foamstrip

NEFOAMSTRIP20
20 m x 10 mm. PE foam expansion joint filler. Serves as an elastic filler of all dilatation gaps around the floor perimeter. Requires sealing with Aqua Sealant.

Maintenance

The tightly sealed TitanX™ surface prevents dirt from taking hold, making Pergo laminate floors easy to clean. Our high-quality, ergonomically designed original maintenance accessories make it even easier to keep your floor looking fresh for longer. To maintain the lustre of a Pergo floor, avoid using regular cleaning products such as soaps and detergents as these will form a film on the surface. Pergo's special all round cleaner removes dirt without leaving a film if used correctly.

All round Floor Cleaner
PGCLEANALL1000
Specially developed for cleaning laminate, wood and vinyl flooring. Ideal for removing dirt, grease spots and heel marks, as well as for daily cleaning.

Repair wax
PGREPAIR
Repair the colour of damaged planks quickly and easily with wax in colours covering the Pergo wood palette. Contains 1 melting knife, 1 comb, 7 wax blocks. For more information on how to mix colours please visit pergo.com
